

Training and Educating Marines for the Integrated Naval Force

The renewed focus on our maritime roots makes it imperative that all Marines learn what it means to operate as an integrated Naval force capable of fighting on, at, and from the sea. To this end, we must:

- Ensure a baseline Naval experience and education for Marines.
- Develop integrated Naval education that includes littoral operations, intelligence preparation, and environmental/pattern of life studies.
- Exploit advanced analytic tools for more comprehensive wargaming that tests our capabilities against different adversaries and challenges.
- Leverage increased computing power and more powerful simulation tools to increase the number of turns, repetitions, and scenarios in training.
